

Civil Engineer/Technical Engineer Commercial Engineer (Fr/Dutch/Engl)

Description of our Company :

Family-run company of human scale in the steel constructions area (public works, buildings and industrial buildings) with a good reputation in Belgium, and international, since over 68 years. Our clients : private companies, building companies and governmental authorities .

Job description :

- You will work within the team of our Technical/Commercial Department
- You will be in charge of the entire study of the public or private company documents (bridges, buildings, industrial buildings, etc.)
- You will globally analyze the documents in our possession and visit the sites concerned
- You will prepare the necessary quotations for the subcontractors and suppliers
- You entertain the necessary contacts with the client or his technical representatives (architects, engineering offices, ...)
- You optimize the cost price using the specific computer software for this application. In this view a major part of you time will be used to work with the different software programs.
- You will work as a partner with the project managers and conclude your study after consultations with the sales director.
- You will take care of the administrative and technical follow-up of your project and assist the sales manager during negotiations.
- You prepare, in the event of an order, the transfer meeting to the project managing department

Profile :

- You have a general technical formation and have had a first professional experience of minimum two years in the construction market, preferably in the steel construction field.
- As your job is principally inside the office, you prefer technical-administrative work.
- You like working with the computer and are specifically at ease using software following the Office program. Knowledge of the BOCAD software is a supplementary plus.
- You have a global capacity of synthesis and analytics.
- You are rigorous, flexible and can work autonomously.
- You live in an area within a reasonable distance of our offices in Ocquier (4560 Clavier)
- You have a good working knowledge of English or Dutch (written and spoken), any supplementary language is a plus.
- You have a drivers licence B and you have a car.

Rowe, 76 - B - 4560 Ocquier (Belgium)

Tel : +32 (0)86 34 41 08

We offer :

- Friendly, stimulating professional working situation within a family-run company.
- You will actively take part in the development of our activities and will contribute to encounter new challenges.
- A salary in accordance with your position and capacities and supplementary benefits.
- The possibility of growth within a outstanding team.
